

STATE OF OREGON

INTEROFFICE MEMO

TO: Gerry Thompson

DATE: October 1, 1984

FROM: Bob Oliver 

SUBJECT: John Mathis

John Mathis called on Monday morning, October 1.

First, he said there were some changes in schedule relating to implementation of the rumor control plan. I suggested he communicate these directly to John Williams, who has been designated by this office to coordinate the project.

Second, John said vaguely there would be some more meetings looking toward the federal government's "disengagement" from this problem. He was not clear where these meetings would be, when, or who would be involved. However, he indicated our office ought to be represented. I said we will be happy to respond to such suggestions as they are advanced.
