Governor's Office

The Honorable Victor Atiyeh  
Governor of Oregon  
Salem, OR 97310

Dear Governor Atiyeh,

Many thanks for your fine work creating opportunities for Oregon businesses. I had the pleasure of attending the Kadanrian Delegation dinner where I was very impressed with your speech "asking for the order".

I also had the opportunity to travel to Taiwan with the Trade Mission sponsored by the Oregon Economic Development Department, and to witness directly the doors you have personally opened and the many friends you have made who remember you well. John Nemecek did an outstanding job organizing and promoting Oregon businesses during the show, reinforcing the relationships you have built.

Your work has made my position easier through your strong efforts and follow-through by John Nemecek. Our company has recently found representation for its products, and we are currently pursuing projects with Chinese Petroleum Company, Taiwan Power Company, Formosa Plastics, and China Steel Corporation to use our fault-tolerant computer control system.

My appreciation that I could witness, first hand, the fruits of your labor and to know "Oregon is out to get the business".

Sincerely,

Michael A. Davis  
International Business Manager  
August Systems, Inc.
