

STATE OF OREGON

INTEROFFICE MEMO

TO: Governor Atiyeh

DATE: May 13, 1986

FROM: Gerry Thompson

SUBJECT: Emergency Response

On May 6, 1986, two days before the Tsunami alert, I met with all individuals from various agencies which are responsible for notifying your office of potential emergencies:

- Military
- State Police
- Emergency Management
- Governor's Office
- Energy
- Children's Services Division
- Corrections
- Department of Human Resources

I reviewed recent examples of notification failure with incidences involving Corrections, Emergency Management and Energy.

We again reviewed the process as well as the need to sensitize all private sector and public sector individuals to the need of good communications.

The meeting was amiable but hard hitting.
