Governor's Office *Takuma Yamamoto*

President

November 20, 1986

Governor Victor Atiyeh
State Capitol
Salem, Oregon 97310
U.S.A.

Dear Governor Atiyeh:

Fujitsu Limited congratulates Governor Victor Atiyeh on the completion of eight years of service to the people of the State of Oregon. Under his leadership, the State of Oregon has developed a business climate that is truly global in scope; one that has enabled multi-national businesses and the people of Oregon to prosper and work together in harmony. We have much to thank him for — as a representative of the State of Oregon and as a citizen in the world community.

Fujitsu Limited has at its roots of its international operations a philosophy of promoting cooperation and coprosperity around the world. By participating in local development, we hope to build long-lasting crosscultural bridges wherever we do business.

We look upon the relationship that exists between Fujitsu Limited and the State of Oregon as a model crosscultural bridge upon which a global understanding will travel. Governor Atiyeh, through his personal interest in a global business environment, welcomed us — and other multinational companies — to his state. He has worked hard to build a \$30 million disk drive plant in Hillsboro, Oregon. That plant began shipping disk drives last April, disk drives built by Oregonians trained in Fujitsu manufacturing techniques.

The opening of this plant is a beginning of what I expect to be a long and satisfying relationship between Fujitsu and the State of Oregon. Governor Atiyeh will be remembered for his contribution to the inception of this relationship — a relationship that will continue to bring our cultures together.

Very truly yours,

Takuma Yamamoto
