Dear Friend.

I have been encouraged by Capt. Wilkinson about my boarding while in school next winter. He said, he can arrange it so that I can get my board at the Indian school. I have written to him about it, but for sure, please see him and tell him that I need his assistance whenever it is possible for him

to do so.

But if he cannot consistently do so, please find a place where I can work for my board. I am anxious to go through the academic course, yes through college, but I will have to take what I can get, even if it is only one ~~more~~ ^{the} academy.

I feel free to ask you for all I have asked, because I know you.

Please let me know about what time I should be there to enter the first term.
Your humble Friend P.C. Stamp
