SECTION
A

Give your child a spanking once a day. If you don't know why, he does.

* * *

Even Sir Isaac Newton had to be hit on the head before he learned the law of gravity.

* * *

Most parents were on speaking terms with God and spanking terms with their children.

* * *

Children were never punished without some end in view—it didn't matter which one.

* * *

Papa sometimes claimed he missed us, but not by much.

* * *

There were many methods of punishment, but the two most common were backhand and forehand.

* * *

I raised my kids on *Parent's* magazine. Never read it, no; I'd just roll it up and whack 'em on the behind.

* * *

Our parents didn't really spank us. They kinda applauded us on the rear with one hand.

DAVID KINGSLEY. Awarded Congressional Medal of Honor
Today David Kingsley is dead, dying a hero's death during World War II. Flying his plane that was damaged he had to crash. He gave his parachute to one of his crew, and went to his death in the plane.

He was always a thoughtful person, and known by many of you.
Today he has an airfield named in his memory, Kingsley Field, in Klamath Falls, Oregon.

WHY WORRY

There are only two things to worry about — You are either sick or you are well — If you are well, then there's nothing to worry about. If you are sick there are only two things to worry about — You will either get well or you will die. If you get well there is nothing to worry about.

If you die there are only two things to worry about — You will either go to heaven or hell — If you go to heaven there is nothing to worry about. But if you go to hell you will be so busy shaking hands with friends you won't have time to worry.

THE GOOD OLD DAYS

By Ralph Granato

Are today's youth missing a large part of growing up? When you mention to them how things were in twenties, thirties and forties, they think your from a different world, or nuts —.

When was the last time you have seen kids play kick the can, or girls playing jax or hopscotch. Have you seen boys playing mumble peg lately.

Skate boards are nothing new, heck in our day we would take a 2x4, break 1 skate in half, attach each end to the 2x4, nail an apple box or whatever box you could find to the front. Wowee we really had a hot rod — girls don't even skip rope anymore —

Many of us Ex-Newsies made extra money carrying and piling wood at 25 cents or 50 cents a cord — some of us could not even afford gloves. Splinters we had for weeks — some of us on Saturday mornings would light stoves for Jewish families. Got paid a nickel by each family — the Rabbi's and priest's were really mixed up, many Italians looked like Jews, many Jews looked like Italians — (still do) —

In the good old days, we had to work for most every thing — oh yes, when is the last time you saw kids play marbles — of course I realize times have changed, kids have new interests and of course more money.

SO MUCH FOR THE OLD DAYS
