Dear Leon:

I shared your Housing Discrimination History Project proposal with the Northwest Association of Community Development Managers at their annual meeting last Friday, June 19, 1992.

Those in attendance appeared to be interested and receptive. They are willing to discuss their level of participation but will rely upon your taking the initiative to call them sometime in the near future.

The Washington State representatives suggested you access the Community Action Network in their state to see if your proposal might not be replicated, and presumably supported, by donations from the the CDBG entitlements. One of the CAP contact people mentioned at our meeting was Larry Eyer of Kitsop County, 1201 Park Avenue, Bremerton, WA 98310.

Washington County will make a contribution to the project via the 1992/93 budget for Housing Services. The award will be made contingent upon WCCAO's ability to secure the full thirty thousand (\$30,000) projected as the project budget, and cannot be used to fund activities at a lesser level nor for any other portion of the housing services budget.

To trigger such a transaction please submit a budget revision for project 4301 any time after July 1, 1992 indicating therein the appropriate line item to be increased and for what purpose.

I hope all the pieces come together. Good Luck!

Sincerely,

H.J. March, Program Manager
Office of Community Development
