My dear friends,

Allow me to congratulate you upon your acquisition and the execution of a very beautiful establishment, which is a credit to our city and particularly to your neighborhood.

Having known you boys since infancy, and being a friend and great admirer of your late, dear, beloved parents, and having spent many profitable years in your present location, I somehow feel a certain kinship for the second generation of Atiyehs for their fine business ethics, civic responsibilities, as an asset to our business, social, political, and cultural life in Portland.

And that you and yours will always be happy and well, is the sincere wish of the brothers, Zell!

Sincerely,

Julius Zell
