Lindsay,

I am sending you copies of pages from two "Chemawa" ledgers that list early deaths and illnesses. There is a third ledger that lists earlier deaths. However, it is too large to fit on our book copier. If someone would like to review it, they would need to come here. They could photograph pages with a digital camera. I might be able to fit it on a photocopier, but it would be difficult. The citation for this volume is: RG 75, Chemawa Indian School, CH22, Volume 4, Register of Students, 1880-1928.

I am also enclosing the most current copy of our Chemawa records finding aid. This is a draft and is being revised now. Please excuse any errors.

I hope this is of some help.
