Boy that was a big deal that
Homestead act sure am proud of you
I wish you would tell me when I
could get 8% and then float bonds
paying 5% sure is some thing all bet
Hatfield will veto that one I shall write
him. Now a license and one dollar more
that will be fine if you put the
Moss back state on the plate.
This state is pretty good when the
Smelt wont come in the river
Keep up the good work.

Dear Sir:

I see you are very much
for Natyeh more tax raiser
and also for a cigarette tax.

It is too bad that people
like you that inherit money
don't seem to know the value of
it.

If you had any brains
(which I doubt very much) you
would be cutting taxes instead
of always raising them.

It is just too bad that you
don't cut the ant. for education
& the highway dept. As a
so-called business man you
should know. If you have not
not got the money to do this it
is better to do without.

You are too yellow to support
a sales tax as it would cost
you a few votes.

Very truly yours

Joe Bates

I have supported you in the past
but no more - you stink

Dear Sir! -

I called you on the phone once last year, 1964, at the tail end of the legislative session, relative, to passing a law to give free hunting and fishing licences, to Veterans of W/W No. 1, 65 years and older, you informed me it was, to late to get a bill in the hopper this session, but you would try, if reelected again.

Therefore, I am bringing this to your attention again in 1965 and I would appreciate your efferot in getting a Bill thru this session of the Legistators, I am now, 73 and will be 74 in May, 65.

There are not many World War I veterans left any more, they are dying fast, and I cannot see where this would impare the revenues of the fish and wild life Dept. This is my only hobby, fishing & hunting, so come on and give us Old Veterans. a free licence, in our declining years.

I would appreciate, hearing from you, and your thoughts on this Bill

Sincerely
Earl, G, Beck.

Dear Vic:

It had been my hope to top off the conclusion of the 1959 legislative session with a coffee for the five "White Shirts" for whom I gained even more admiration during the session than I had when it began. You grew tremendously in stature as you applied scholarship, leadership, and perserverance to the tax program and other matters on which you worked.

You are precisely the kind of young, personable, articulate, able businessman we need on a continuing basis through the legislature to chart Oregon's course for the decades to come. Please do file for renomination and join us again in 1961. I will do everything I can to make sure you are returned.

With warmest personal regards.

Sincerely,

Governor

Dear Mr. Atiyeh,

My thanks for a very good
experience. I appreciated
your compromise Landbuy
and your Committee's willingness
to let me get by with
generalities. And may I say,
too, that the willingness of busy
people to stick with the

got all day Friday and all
morning Saturday was very
impressive from the viewpoint
of one conditioned by political
practice in the East. I can
now better appreciate the quality
of Oregon legislation and public
administration. The extra set
of tables will follow later in the week.
Please let us know if we can be
helpful. Sincerely, L. S. R

Dear Mr. Atiyeh:

A few words to express to you all my gratitude for the kindness you showed us during our visit to Salem. Thank you very much for the opportunity to assist at a session of the House of Representatives. It was a marvelous experience for us.

That day, speaking with you, I learned that there are many gifts that a representative should have in order to accomplish his task in the best way; one of these (as you said) is patience, and I think you have it to a great extent.

I also learned that a representative is a person as human as we are, and the more he is able to listen and understand people, the more he is great.

I have seen you just one time, but the impression I had was that of an honest, intelligent man, able to work for the good of his people.

I hope to meet you again sometimes.

God bless you,

Dear Vic,

I trust you read in the newspaper where the new aluminum industry that Gov. Hatfield tried to get for Warrenton, Oregon went to Washington, a state where they have a Sales Tax. I know they promised a special bill out of the Washington Legislature to help new industries but the fact remains they went to a state that has a sales tax. The employees of the new company will pay a sales tax when ~~y~~ they spend their pay and Oregon tourists will pay a tax to Washington when they spend in Washington.

We need a bill that will reduce the property tax at the same time the sales tax starts.

A person could have a net income of zero dollars for the year and still pay \$5000.00 property tax and this is unfair and leads to bankruptcy.

We have many empty buildings downtown in our City and the businesses are gone, they produce nothing, yet the owners must pay a property tax. This is unfair.

Vic, you are wrong in opposing the sales tax.

Yours Truly
