My dear Sir: & Brother:

Have been simply overtaken with  
very much of detail to do in my Indian  
work. If I had expended \$25000 my  
papers would have been no more intricate  
or hard to make. Have been busy during  
the day & often until after midnight in  
making papers. The Mail closes very  
soon, but I felt that I could not  
let it go without saying this much to  
you, not but what you knew I was  
at work for the school & so for the  
Master whom we love & would serve,  
but I just wanted to say it!

Hope to be back with some children the  
last of this or first of next week  
(over)

Very truly yours,

W. McKim

I will pardon this hasty  
note.
