

Oregon in Brief

Programs of study at the University of Oregon

The University

The University opened its doors in the fall of 1876 through the grass roots efforts of Oregonians. In the past century, the University has grown into an institution of national stature. Today it is a member of the prestigious Association of American Universities, has four faculty members who are members of the National Academy of Sciences, and boasts two Nobel Prize winners among its alumni. In addition, the American Council on Education has rated eight University departments as among the 20 best in the nation. And in 1978, the University's athletic department was ranked sixth in the nation for the quality and range of its offerings.

The University currently has about 16,000 students and over 1,200 faculty members. It is organized into a College of Arts and Sciences, eight professional schools and colleges, and a Graduate School. Most schools and departments offer advanced studies leading to master's or doctoral degrees. The faculty and facilities for these graduate programs add greatly to the University's ability to provide quality education and career training for all its students.

The University's 250 acre campus is a mixture of ivy-covered buildings and modern structures with hundreds of different kinds of trees gracing the grounds. The campus is compact and is located within walking distance of downtown Eugene.

Eugene

The Eugene area has a population of around 165,000. The city offers a cosmopolitan range of cultural, entertainment, and shopping opportunities while retaining its comfortable, small-town atmosphere. Over a thousand acres of parks, extensive bikeways and jogging trails, and a three-mile canoe course add to Eugene's charm. Just over an hour's drive away, the Cascade Mountains to the east and the Pacific Coast to the west offer numerous recreational opportunities.

University of Oregon

College of Arts and Sciences

The University of Oregon has a strong tradition of emphasis on liberal education, and the College of Arts and Sciences, the University's liberal arts component, offers a wide spectrum of curricular choices. With more than thirty departments and special learning programs, the College is the nucleus of the University. All students take a required core of courses in the three broad areas of the College—Sciences, Arts and Letters, and Social Sciences. Thus, courses offered in the College range from those providing a broad liberal arts basis for any type of degree to those designed for advanced and specialized study. Programs in any of the following areas will give a sound foundation for a lifetime of intellectual growth and career decision making.

Anthropology	History
Biology	Italian
Chemistry	Japanese
Chinese	Latin
Computer Science	Linguistics
Drama	Mathematics
Economics	Philosophy
English	Physics
Film Studies	Political Science
French	Psychology
General	Religious Studies
Humanities	Rhetoric and
General	Communication
Literature	Russian
General Science	Sociology
Geography	Spanish
Geology	Speech
German	Telecommunication
Greek	

Special Studies & Programs

The College also supports many interdisciplinary and special programs that give you the flexibility to design a course of study to meet your personal and career interests. Some of the following programs offer bachelor's or advanced degrees; others may provide certificates rather than formal degrees. You can enroll in certificate or non-degree programs at the same time you are working on a degree in another area. Contact the Office of Academic Advising for more information.

The Robert D. Clark Honors College combines the best qualities of a small, private college with the advantages of a state university. Students attend small classes, tutorials, and seminars and have their own counselors and study areas. You must apply directly to the Honors College for admission. A separate *Independent Study Program* is administered by the Honors College.

Asian Studies offers interdisciplinary bachelor's and master's degree programs.

Latin American Studies is a nondegree program emphasizing economics and cultural affairs with major concentration in history, geography, anthropology or language.

Ethnic Studies is a certificate program to inform students about American ethnic and cultural strains and their contributions to our society.

Russian and East European Studies Center offers an interdisciplinary certificate in the study of the people, languages and cultures of Russia and East Europe.

Women's Studies is a certificate program drawing upon many academic areas of the campus.

Classical Archaeology and *Classical Civilization* are interdisciplinary non-degree programs in Greek and Roman civilizations and combine work in art history, classics, and history.

Prehealth Sciences programs provide the first phase of training for careers in dentistry, dental hygiene, medicine, medical technology, nursing, optometry, pharmacy, physical therapy, podiatry, and related fields.

Comparative Literature graduate programs are available to literature majors with competency in two foreign languages.

Oregon Institute of Marine Biology offers graduate research programs and undergraduate courses on Oregon coastal environments and marine biology.

Environmental Studies Center offerings include films and lectures, a series of courses offered each term, and a library of specialized publications.

Professional Schools and Colleges

Complementing the College of Arts and Sciences are eight professional schools and colleges through which students may obtain degrees.

School of Architecture & Allied Arts

Architecture, Interior Architecture, and *Landscape Architecture* programs take five years to complete and prepare you for professional and teaching careers.

In addition to various graduate degrees in architecture, you can also pursue a two-year master's degree program in urban and regional planning.

Art Education, Art History, and *Fine and Applied Arts* programs may be four or five years in length and prepare you for teaching and professional careers in art as well as for the individual arts—ceramics, jewelry and metalsmithing, painting, printmaking, sculpture, visual design, and weaving.

College of Business Administration

This College includes the Undergraduate School of Business and the Graduate School of Management. If you are interested in management and other professional careers related to business or government, you can receive a bachelor's degree in accounting, business environment, finance, management, marketing, quantitative methods, and transportation.

The Graduate School of Management offers advanced degrees in many business areas and interdisciplinary programs in forest industries management and industrial relations.

School of Community Service & Public Affairs

The School of Community Service and Public Affairs (CSPA) can help you plan specialized programs for various community-oriented careers. Your studies can be shaped around human service delivery, public management and planning, program and policy development-evaluation, and commu-

nity development or social action programming. Graduate studies include Public Affairs and International Studies.

College of Education

Established in 1910, the College of Education provides training for all aspects of teaching and school administration. Through the Division of Teacher Education you can prepare for teaching in elementary and secondary schools or gain the expertise needed to be a learning specialist for mentally or physically handicapped children.

The Division of Developmental Studies offers graduate work in counseling, educational psychology, and speech pathology and audiology. The Center for Educational Policy and Management provides advanced learning in administration, higher education and educational policy.

College of Health, Physical Education, & Recreation

This College offers professional study in dance, health education, physical education, and recreation and park management; service courses that meet the University's graduation requirements; and recreational programs in many men's and women's sports.

Through the College's various programs you can gain the skills and experience needed for positions as teachers, coaches, athletic directors, community recreation and playground directors, leaders in the YMCA or YWCA, and workers or researchers in the fields of recreation and physical therapy.

School of Journalism

Majors in the School of Journalism are expected to gain as broad a background in liberal arts as possible, particularly in literature and the social sciences. If you are interested in journalism careers, you can major in advertising, news-editorial, newspaper management, radio-television journalism, magazine journalism, public relations, and visual communications programs.

School of Law

Established in 1884, the University's School of Law provides three years of study leading to the Doctor of Jurisprudence degree. The School also offers special programs in legislative, civil, criminal, environmental, and ocean law.

School of Music

Organized in 1900, the School of Music is one of the few schools in the Northwest offering a full range of undergraduate and graduate musical training. You can specialize in voice, many different band and orchestral instruments, music theory, composition, and music education. For information on the School's special requirements, consult the Admissions Office.

The University of Oregon is an equal opportunity/affirmative action/Title IX institution.

University of Oregon

For More Information

Write our Admissions Office, 270 Oregon Hall, University of Oregon, Eugene, Oregon 97403, or phone (503) 686-3201. Your high school or library may also have copies of our catalog and

other materials. If you can, please come to see our campus! And let us know ahead of time so we can try to arrange for you to tour the campus and talk to the staff or faculty persons who can best answer any questions you might have.

UO Preview

During UO Preview on February 10, 1979, you and your parents may tour the campus, talk to professors and students, and find out more about our academic programs, student activities, and admissions procedures. You will also learn about housing, financial aid, and other related matters.

Early Orientation & Registration

If you are an entering freshman, or transferring with less than 45 credit hours, you can register for fall term classes in July 1979. During one of five full-day programs you can plan your first year of studies with the help of an academic adviser and become familiar with some of the many services and facilities available to you. Parents are welcome to attend a special program during the same days.

Admissions

Freshmen must submit completed applications, high school transcripts and results from the Scholastic Aptitude Test or the American College Test.

Oregon resident freshmen are admitted with a 2.50 grade point average or better. (Some professional programs may have additional requirements.) You can be admitted with a lower average if your GPA combined with test results yields a "predicted" first term college GPA of at least 2.00. If you are a nonresident, you can be admitted with a 2.75 average or a "predicted" first term GPA of 2.10.

Another admission method is to qualify as a transfer student by achieving a 2.00 GPA on either a structured 12-credit course load in a UO Summer Session, or a 15 credit (10 semester hours) load in any accredited college.

Architecture programs admit students during fall terms only; the deadline for applying is February 15. For music, an audition and special application are required.

Housing

Many different housing options are open to you. Several types of dormi-

tories on or near campus offer single and multiple room and board rates from \$1,484 through \$2,508. Dorms include bed, linens, closet, desk, bookshelves, draperies, and for the University Inn, phones, maid service, and in some units, private baths.

Four student-owned and operated cooperatives near the campus charge about \$200 per year less than the dormitories. Students with families can also rent *student-parent apartments* from the University for \$80 through \$115 a month.

If you are interested in living in one of the 26 fraternities and sororities near campus, write Panhellenic for women, or Interfraternity Council for men, care of Erb Memorial Union.

Prices for *apartments and houses* in the city range from \$75 for a "quad" (living-sleeping area with shared kitchen) to \$300 or more for multiple bedroom apartments or houses.

Expenses & Aid

The minimum estimated expenses for an Oregon resident at the University for 1978-79 amount to about \$3,200 (\$1,484 for dormitory; \$1,025 for tuition, books, deposit; \$700 for personal expenses). Out-of-state student costs are \$1,850 higher, due to additional nonresident tuition charges.

The Office of Student Financial Aid provides loan, grant, scholarship, and part-time job assistance to many students. You should file your application prior to March 1 preceding the fall term in which you want to enroll. Write the Office of Student Financial Aid for more information.

Academic Calendar

Fall 1979—Registration, Sept. 20-21; classes begin Sept. 24.

Winter 1980—Registration, Jan. 3-4; classes begin Jan. 7.

Spring 1980—Registration, Mar. 24-25; classes begin Mar. 26.

Summer 1980—Registration, June 16; classes begin June 17.
