

STATE OF OREGON

INTEROFFICE MEMO

TO: Lynn Frank

DATE: November 29, 1983

FROM: Gerry Thompson *Gerry*

SUBJECT: Trojan Drills

The Governor's security, Lieutenant Lon Holbrook, should be notified of any Trojan drills. He should also be cleared for admittance to the EOC. It is a fact that should there be a Trojan occurrence, Lon would have to be available to the Governor throughout the whole emergency. It has come to my attention he has not been notified in the past and perhaps we should start working him into the drill process now. As is true with all other Governor's staff involved in any emergency operation, Bob Oliver or myself will take responsibility for notifying Lon.
