

# PACIFIC UNIVERSITY

O R E G O N

## To the prospective Pacific University student:

Pacific is an unusual place. We take pride in those things that make us stand out. And we invite you to take a good, close look for yourself.

Today, more than ever, each of us is both a citizen of our country and a citizen of the world. Students must be able to interpret the significance of an event in Seoul and Tehran as easily as they can one in Washington, D.C.

Consequently, at Pacific we've developed programs that lend to a well-educated perspective. We're a traditional college with a global outlook. We're small enough to give you the personalized attention you need to fully realize your personal and professional objectives and large enough to offer you the courses and experiences you need to explore the world around you.

Pacific University is ivy-covered brick buildings and big old oak trees situated midway between metropolitan Portland and the beautiful Oregon coast. Here students and teachers know one another—beyond the classroom. They eat together, they argue together, they laugh together, and they discover and learn together. Here a student interrupts her biology research to go to basketball practice, the President teaches an Honors Seminar, and a graduate student in psychology presents an original musical composition for piano and orchestra. At Pacific, students and teachers are a community—one in which pride in the University and in one another dominates our daily encounters.

Take the time to discover Pacific University—through this brochure, a campus visit, and talking with our admissions counselors, professors and students. Then ask yourself what kind of person you'd like to be four years from now and what you'd like to discover about the world around you in that time. You may just be the kind of person we call, proudly, a Pacific University student.

Robert F. Duvall  
President, Pacific University

*Bob Duvall*

# Academic Calendar 1989-1990

New student orientation . . . . Aug. 28

## Fall semester

First day of classes . . . . . Aug. 30

Labor Day, no classes . . . . . Sept. 4

Facts About Pacific . . . . . 17

# Small University...

Pacific's size fosters involvement. You'll be much more than a spectator at your own education. The small classes, modern and well-equipped facilities, and special study opportunities make you an active participant in everything you do.

Consider the relationship between students and their professors. Since classes at Pacific usually range from 15 to 25 students, professors know much more than your name and how you did on your last paper. They know you, your interests and why you're taking their particular course.

## We've chosen to stay small.

Pacific's size is no accident. The University has chosen to stay small to keep your opportunities big.

You'll find it's easy to get to know the campus and people at Pacific. At the same time, students often wish they had more than four years to explore Pacific's many courses and programs.

## Extra Credit:

### What are the names of my children?

Over his 13 years at Pacific, biology professor Robert Stockhouse and his wife have had approximately 700 students to dinner. "That's the sort of smallness I love about Pacific," he says. "Once, as a bonus question on an exam, I asked my students to name all four of my kids; the funny part was, almost everybody got them right."

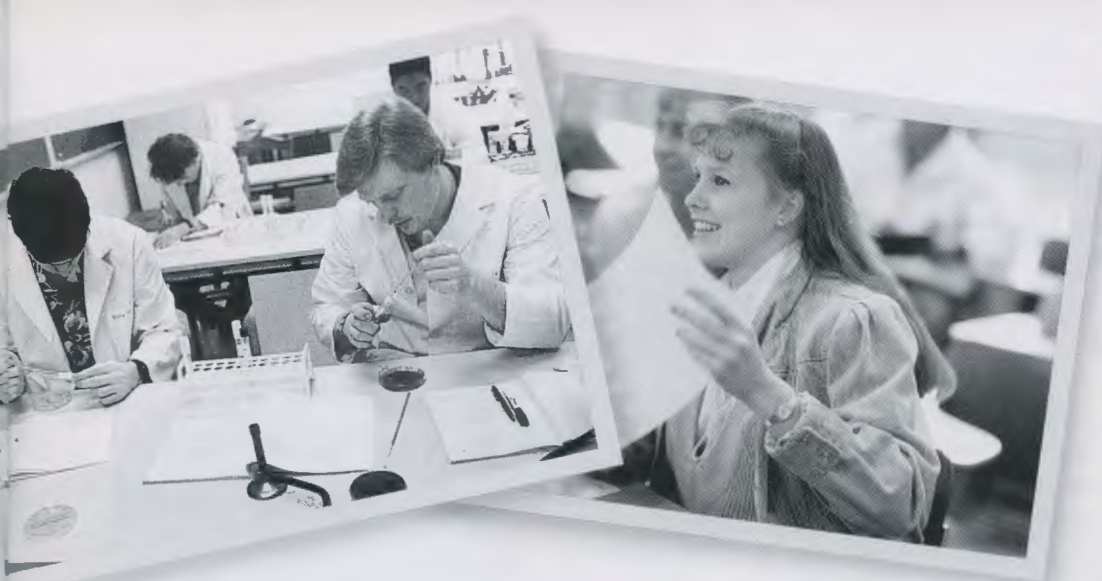

**“**What Pacific has to offer isn't as obvious as the attractions at some large schools. You go to Pacific because you care about the quality of your education.**”**

Darce Chaumell, '91  
Boise, Idaho

“Pacific really gave me the opportunity to be an individual. I think if I had gone to a larger university I would not have had the encouragement that Pacific gave me.”

William Hilliard, '52  
Editor, *The Oregonian*

## Where we're big.

Pacific is big where it counts most. You'll find a wide variety of majors. You'll be able to choose study programs abroad to explore other cultures and other ways of life. You'll enjoy an annual debate series with nationally recognized scholars and political figures. There's even a Pacific Intercultural Institute to expose you to a part of the world that's rapidly growing in importance: the Pacific Rim.

Pacific is big on the hands-on approach to learning. Our small size saves you from having to sign up weeks in advance to use our computers, diagnostic equipment, chemistry labs, or sophisticated audio and video studios. At Pacific, you'll get to use the technology of tomorrow today and every day.

## Is Pacific right for you?

Should you choose a small university like Pacific? If you want the kind of individualized attention a smaller school can provide, Pacific is an excellent choice. A Pacific education lasts a lifetime. Graduates have gone on to excellence in fields as diverse as communications, education, politics, medicine, law, music, graphic design, and computer engineering.

## Major programs

### College of Arts and Sciences

- BUSINESS ADMINISTRATION with concentration in:
  - Accounting
  - Economics
  - Management
  - Marketing
  - Small Business Management
- COMMUNICATION with emphasis in:
  - Journalism
  - Television
  - Mass Communications
- NATURAL SCIENCES
  - Applied Science
  - Computer Science
  - Biology
  - Chemistry
  - Mathematics
  - Physics
  - Pre-engineering and Health Professions
- HUMANITIES
  - Modern Languages
    - French
    - German
    - Spanish
    - Japanese
    - Chinese
  - Literature
  - Creative Writing
  - Philosophy
  - Philosophy with Religion Emphasis
  - Coordinated Studies in Humanities
- EDUCATION
  - Elementary Education
  - Secondary Education
    - Certification offered in: Art, Biology, Integrated Science, Language Arts, English, Mathematics, Foreign Languages, Music, and Social Studies.
  - Physical Education
- SOCIAL SCIENCES
  - History
  - Political Science
  - Psychology
  - Social Work
  - Sociology
- THE ARTS
  - Art
  - Theater
  - Music
    - Bachelor of Music in Professional Studies
    - Bachelor of Music Education

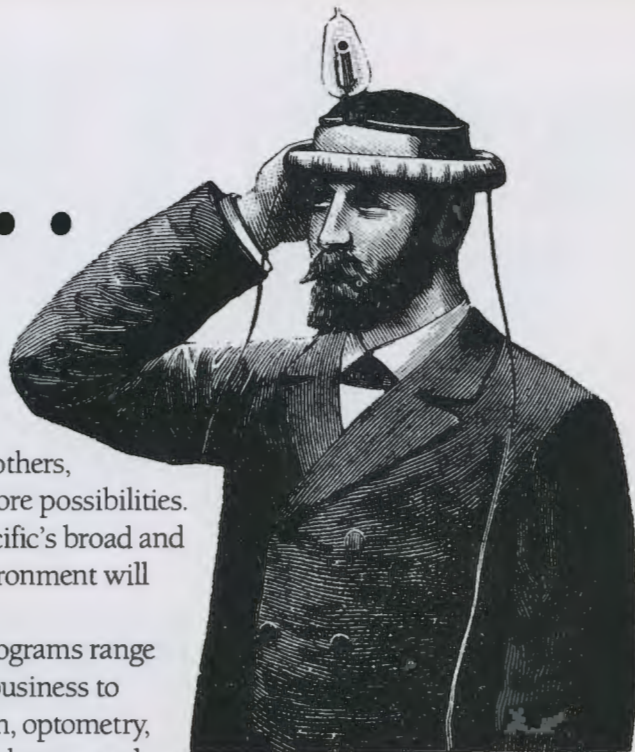

### Graduate College and Programs

- OPTOMETRY
  - Doctor of Optometry
    - (Students may apply to the Pacific University College of Optometry after a minimum of two years of course work.)
  - Physical Therapy
    - Master of Science in Physical Therapy
      - (Students may apply to the master's program after a minimum of three years of prerequisite work.)
    - Occupational Therapy
      - Bachelor of Science in Occupational Therapy with certifications. (Students may apply to the two-year professional program after a minimum of two years of prerequisite work.)
- EDUCATION
  - Master of Arts in Teaching
  - Master of Science in Teaching
- CLINICAL PSYCHOLOGY
  - Doctor of Psychology (Psy.D.)

# Big Opportunity.

# Big Ideas...

Some students enter college knowing exactly which career they want to pursue. For others, college is an opportunity to explore possibilities. Whichever road you choose, Pacific's broad and intensely personal learning environment will help you on your way.

The University's degree programs range from humanities, sciences and business to professional degrees in education, optometry, psychology, occupational therapy and physical therapy. This unique combination of liberal arts and pre-professional programs offers a breadth of diversity seldom found in most undergraduate institutions.

## A strong core program.

All Pacific undergraduates benefit from a core curriculum designed to provide a complete education as well as the chance to explore areas of interest. The core requirements cover writing and math skills, culture and civilization, foreign languages, the natural and social sciences, artistic self-expression, and physical fitness.

## The freedom to explore.

Pacific offers excellent opportunities to explore disciplines outside your major. An elementary education major could choose to spend a year studying in Japan. A physical therapy student could play lead violin in the University Orchestra. It is not uncommon to see business majors involved in theater productions or writing for the University paper.

“Enthusiasm is contagious. If you love your subject, your students can sense that. I bring *Star Trek*, *Ted Bundy* and the *Ayatollah* into my classroom all the time. They help my students see that philosophy has its practical applications as well.”

Dr. David Boersma  
Professor of Philosophy

# A Look at Some of Pacific's Courses\*

## THE ARTS

- Advergraphics
- Painting: Oil / Acrylic
- Raku
- Art of China & India
- Music of the Counter Culture
- Woodwind Brass Percussion Class Techniques
- Composition and Arranging
- The High Baroque: Bach and Handel
- Theatre Company Performance
- Theatre Company Technical and Organizational
- Directing and Performance for the Camera

## EDUCATION

- Children's Literature
- Normal Language Development in Children
- Computers for Educators
- The Exceptional Child
- Physical Education Fitness for Life
- Coaching Methods
- Anatomical and Mechanical Kinesiology
- Perceptual Motor Learning
- Current Health Issues

## HUMANITIES

- Introduction to Mass Media
- Argumentation and Debate
- Television Production
- Scriptwriting
- Poetry and Fiction Writing
- British Literature
- Introduction to Linguistics
- Major Writers
- Introduction to French Language and Culture
- Topics in German Language and Culture
- Italian Language and Culture
- Japanese Language and Culture
- Introduction to Chinese Language & Culture
- Introduction to Spanish Language & Culture
- Ethics, Medicine and Health Care
- Philosophy of Religion
- Natural Sciences
- Ecology
- Genetics and Evolution Laboratory
- Human Histology
- Principles of Neural Behavior
- Organic Chemistry
- Quantitative Analysis
- Physical Chemistry
- Computer Programming
- Computer Architecture
- System Design
- Probability and Computing
- Calculus
- Linear Algebra
- Numerical Analysis
- Physics of Everyday Phenomena
- Analog Electronics Laboratory
- Thermodynamics
- Engineering Mechanics Statics
- Astronomy

## SOCIAL SCIENCES

- Contemporary Economic Problems
- Microeconomic Theory
- Macroeconomic Theory
- Money and Banking
- Accounting
- Auditing
- Small Business Management
- Marketing
- International Business
- The Far East and the Modern World
- History of American Thought and Culture
- Nations and the Problem of Peace
- The Soviet Union
- Modern China
- The Psychological Bases of Aggression
- Child and Adolescent Development
- Learning and Behavior Modification
- Basic Clinical and Counseling Techniques
- Research Methods in Anthropology
- Sociology of the Family

(Request catalog for complete listing of all courses offered by the university.)

\*Opportunities for study in courses offered by Pacific University's graduate and special programs in Optometry, Physical Therapy, Occupational Therapy, Graduate Education and Professional Psychology are available to undergraduate students qualifying for advanced study.

“During my freshman year, my math professor noticed I wasn't doing well in her class. She drove in an hour early every day to tutor me. That personal effort is what makes Pacific so outstanding.”

Lora Orrison, '90  
Caldwell, Idaho

Pacific believes college should prepare you for more than a career. It should help you continue your development as a person and give you the tools for a lifetime of learning.

## Professors who practice what they teach.

More than 80 percent of Pacific's professors hold doctoral degrees. Faculty members regularly publish their research, frequently in collaboration with students, in scholarly journals and present them at academic conferences around the world. A number of professors hold positions in state and national professional organizations and are recognized leaders in politics, communications and the arts.

First and foremost, Pacific's professors are teachers. Their teaching is a priority above all else and one of the many things that have made this small university so big.

# Excellent Choices.

# Small World...

College is a time to expand horizons. At Pacific, that opportunity is a vital part of our program. The University brings the world into the classroom and, at the same time, uses the world as a classroom.

## "Americans drink such large colas!"

Pacific's English Language Institute immerses students from Europe, Latin America and the Pacific Rim nations in the English language. Last year, some of our international students were invited to list things they've observed about Americans. Here are a few of their responses:

*"Americans are so frank."*

*"Everything in America is so big"*

*"Americans are so cheerful."*

*"American people like to drive beat-up cars."*

*"Americans break promises so easily."*

*"Americans yell a lot."*

*"People can buy a gun so easily in America."*

*"Americans don't feel the turning of the seasons."*

*"American people hug each other all the time."*

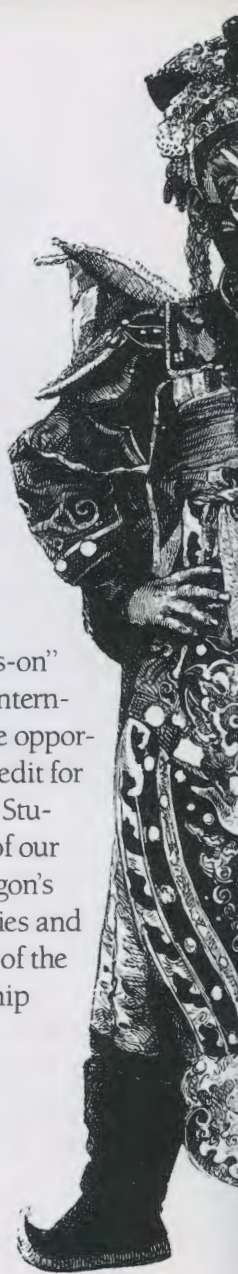

## Internships.

As part of our "hands-on" philosophy, Pacific offers internships that give students the opportunity to earn academic credit for full-time work experience. Students can take advantage of our proximity to many of Oregon's leading high-tech companies and other businesses or go out of the state as part of the internship program.

## Studying and working abroad.

A good way to learn about other cultures is to study abroad. Pacific offers semester or year-long programs at universities in Japan, China, Austria, Germany, France, Spain, England, Wales and Mexico. Apart from language study, these programs immerse students in the culture of the host country. Any qualified student, regardless of major, may participate, and most financial aid packages will apply.

If you'd like to try working abroad, Pacific can arrange that, too. In addition to regular internships, the University offers overseas internships in a number of countries.

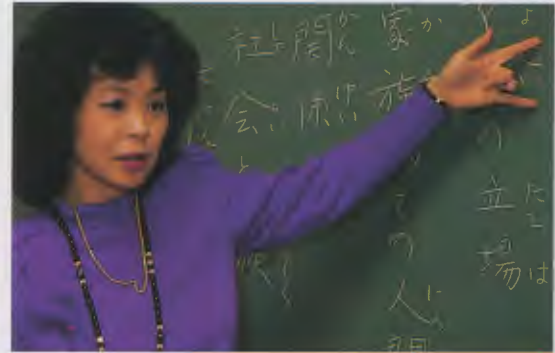

## The Pacific Intercultural Institute

Encouraging the free exchange of ideas among Pacific Rim nations, The Pacific Intercultural Institute is one of the cornerstones of the University's commitment to preparing you for the world of tomorrow. The Institute seeks to deepen intercultural relationships with Pacific nations and prepare business people and community leaders for the Pacific Century ahead of us. Through the Institute, students have access to courses in Japanese and Chinese language, economics, society and culture, history, and teacher education. Other cultures of the Pacific Rim are included in new and developing courses and programs. An English Language Institute brings students from all over the world to Pacific University, adding a richness and diversity to campus life.

## Other enlightening opportunities.

A variety of other Pacific programs expose you to new ideas and other ways of thinking. Joint research with Pacific's faculty involves students at all levels. Past projects have included long-lasting batteries for space ships, nematodes for crop and insect control, and a study of the Holocaust. Pacific's unique interdisciplinary Peace and Conflict Studies program explores the causes and resolution of conflict, drawing on faculty from all departments. The University's annual debate series, run by students, lets you hear the opinions of such notables as William F. Buckley, Robert Bork, Jeane Kirkpatrick,

Andrew Young, Patricia Schroeder and Arthur Schlesinger on everything from national defense to environmental protection. The acclaimed Portland Arts and Lectures series, co-sponsored by Pacific University, brings such literary stars as John Updike, Annie Dillard, Norman Mailer and Susan Sontag to the community.

# Lots of Excitement

It is easy to get involved at Pacific. Every activity is open to all students. There are theater productions; radio and television studios; a full assortment of musical groups; your choice of intercollegiate, club or intramural athletic programs; a number of inter-faith groups; active student government; and fraternities, sororities and a host of other clubs and organizations.

## Life in the residence halls.

Much of what one learns at college happens outside the classroom. Pacific believes in the value of the residential campus experience and makes residence life active, fun and eventful. The University is small enough that you can create many of your own activities. Beach parties by the pool, ski trips to Mt. Hood, or whale watching at the coast complement pickup frisbee games on the lawn, corridor paint-the-wall parties or group study sessions around a fire in one of the lounges.

## An opportunity to meet new friends, discover new interests.

One of the greatest advantages to living in the residence halls is making new friends. In September, everyone is new, by November often lifelong friendships have been forged.

Pacific students come from a variety of backgrounds and cultures. While the largest number come from the West, we have students from across the nation and around the world.

“Why Pacific? I liked the friendliness. I liked the fact that even total strangers said hello.”

Gina Shilhanek, '91  
Dayton, Oregon

## Pacific Honors Program

Interested in an opportunity for special interdisciplinary study? Academically talented students can apply to participate in the Pacific Honors Program. The program includes seminars and individual research with a member of the faculty. Students participating in the program often join faculty members at their homes for dinner and discussion.

### Recent Honors Research Topics:

#### BUSINESS ADMINISTRATION

Exploring the Merits of Human Resource Accounting Using the Professional Sports Industry as a Model

#### BIOLOGY

The Effects of Tissue Culture Substrate on the Differential Expression of Acetylcholinesterase and Butyrylcholinesterase in the Developing Chicken Retina

#### ENGLISH

*Paradise Lost* vs. *The Wasteland*: A Study in the Changing Function of Poetry

#### PHYSICAL THERAPY

Making Transportation of Food Possible for a Person with a Walker—An Adaptive Device

“Pacific proved to be warm, supportive, intellectually encouraging environment. Being at the time a 17-year-old kid from Burns, Oregon, that was important to me.”

Dr. Calvin Mosley, '66  
Associate Dean, John F. Kennedy  
School of Government  
Harvard University

## The sporting life.

It isn't enough to exercise just your brain, of course. That's why athletics play an important role in campus life.

At the intercollegiate level, Pacific fields teams in the following sports:

#### MEN Football

Baseball

Basketball

Soccer

Golf

Tennis

Cross Country

Wrestling

#### WOMEN Volleyball

Softball

Basketball

Soccer

Golf

Tennis

Cross Country

## Sports just for the health of it.

Interested in sports just for fun and exercise? Intramural programs are offered throughout the year. The Pacific Athletic Center has a full gym, dance studio, racquetball and squash courts, weight-training facilities and a fieldhouse large enough for indoor soccer matches. Tennis courts, jogging paths and various athletic fields dot the campus.

# One Big Family.

# Big City...

Pacific University is located in Forest Grove, a beautiful, secluded rural community 25 minutes west of downtown Portland. The small-town atmosphere, coupled with easy access to the big city, has given Pacific a unique advantage. Students can choose between the many attractions of a major metropolitan area, or enjoy the attractions of Oregon's spectacular countryside.

## Urban adventures.

Frequently ranked as one of the 10 most livable cities in America, Portland is a vibrant center of cultural activity. The city is full of theaters, galleries, museums, concert halls, parks, interesting shops and night spots. From Ethiopian restaurants to a performance by Baryshnikov, Portland is big enough to give you all the urban excitement you could want, but small enough to make you feel at home.

Portland offers a wide range of employment opportunities for Pacific graduates. Well-known companies like Tektronix, Mentor Graphics, Nike, Jantzen and AVIA all have grown and prospered in the area.

## Forest Grove

Perhaps one of the best things about Pacific is Forest Grove. The town has grown up around the University and Pacific is still the center of life for the community. Main Street runs parallel to campus and provides everything a student needs from local banks to pizza parlors.

## The Great Outdoors

If you like the great outdoors, you've come to the right place. Pacific University is surrounded by it. The Oregon coast is just 45 minutes from the campus. Mt. Hood and some of the best skiing in the Northwest, downhill (year-round) and cross-country, is just a 90-minute drive. The Columbia River Gorge, a few miles east of Portland, offers hiking trails and spectacular waterfalls, and is famous for its world-class windsurfing area. Hagg Lake, three miles from campus, is a favorite springtime destination for Pacific students and a cycling center for the area.

## Campus visits.

The best way to get a feel for whether Pacific is right for you is to visit the campus. The Office of Admission is eager to arrange for prospective students to tour the campus, sit in on classes, or speak with a professor, coach or students.

For applicants wishing to spend the night in the residence halls, student hosts have extra beds in their rooms and will introduce you to other Pacific students while you are on campus.

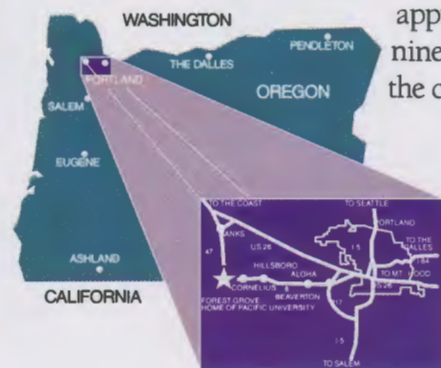

To arrange a visit or overnight stay, contact the Office of Admission, toll-free 1-800-635-0561 or (503) 359-2218.

## Directions to campus:

**From airport by bus**—Take the Downtown Airporter service to Fifth Avenue in downtown Portland. From there, take the #57 bus (Portland's Tri-Met bus service) to Forest Grove. The bus stops right in front of the campus.

**From Portland by car**—Take Highway 26 west to Route 6, Forest Grove/Tillamook. Continue south on Route 47, Banks/Forest Grove, approximately nine miles to the campus.

# Great Northwest.

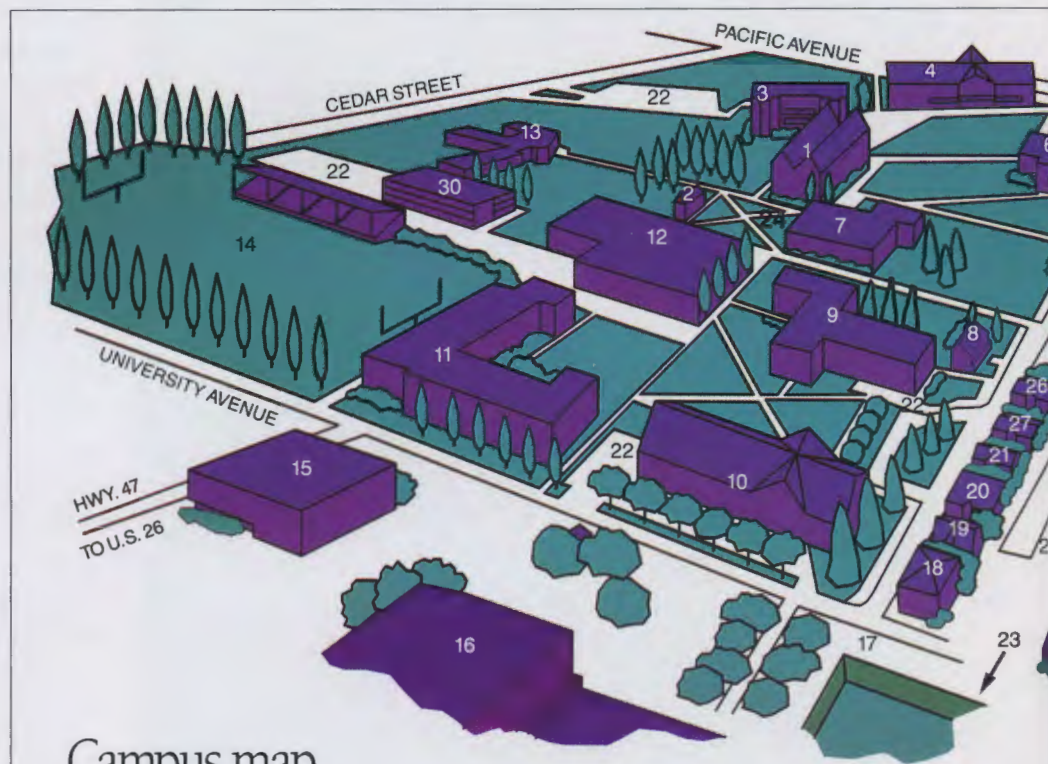

# A Few Details...

Prospective students should know what the Admission Office looks for when considering an application. Every part of the process is important. Transcripts and standardized test scores are an indication of a student's ability to undertake a challenging academic curriculum. The essay provides an opportunity for personal expression and expanding upon the talents, experiences and extenuating circumstances that make you unique. The recommendation is a reaffirmation of a student's potential and an interview allows applicants to make sure that all their questions have been asked and answered.

Beyond test scores and grade point averages, Pacific looks for extra-curricular involvement. Accelerated and honors courses are taken into consideration. Positions of leadership and responsibility are important. Above all, Pacific looks for students who will not only participate, but who will be successful at the university.

## Freshmen.

Application requirements for entering freshman include: a completed application form and application fee; an official transcript of high school course work; SAT, WPCT or ACT scores; and a counselor recommendation. An interview with a representative of the Admission office is optional, but advised.

| 15 Forest Grove Municipal Pool               | 30 Physical Therapy Building                    |

## Transfers.

Application requirements include: a completed application form and application fee; transcripts from all post-secondary institutions attended (applicants with less than 30 college credit hours must also submit a high school transcript with SAT or ACT scores); and a counselor recommendation. An interview with a representative of the Admission office is optional, but advised.

## Financial Aid

Pacific University has an aggressive financial assistance program designed to make "the Pacific difference" affordable to all qualified students. Academic Scholarships of up to \$5,000 per year; talent awards in music, speech and debate, and athletics; and Challenge Awards, based on financial need, supplement other types of assistance to make a Pacific education affordable to almost any student.

In 1988-89, a full 87 percent of our students received more than \$6.2 million in grants, loans, scholarships and work/study programs. An average of \$8,800 was received per student.

All students, regardless of need, should submit a Financial Aid Form (FAF) to the College Scholarship Service between January 1 and February 15. FAF forms may be obtained from the Financial Aid Office at Pacific or from your current school. Transfer students must send Pacific a financial aid transcript from each college or university attended.

### Application calendar

Applications will be received beginning November 1, and all applicants are encouraged to apply as early as possible. Completed applications received by March 15 will be notified of the university's decision after April 1. Applications received after our notification date will be handled on a rolling admissions basis and acceptances will be made on a space-available basis.

### Costs.

1989-90 Academic Year

Tuition and fees .....	\$9,400
Room & board .....	3,145
(double room with 19-meals/week plan)	
Books (estimate) .....	350
<hr/>	
Total estimated cost .....	\$12,895*

\* There are additional charges for professional students (Occupational Therapy, Optometry, Physical Therapy, and Clinical Psychology) and for those who want to take private music lessons.

# Plenty of Help.

# Is Pacific University Right For You?

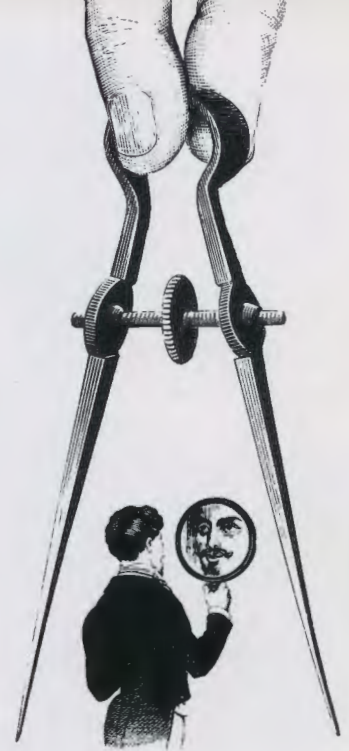

Picking a school for your undergraduate education is no easy task. You have literally hundreds of options. But there are some simple generalizations about Pacific students that may help you decide if this university is right for you.

Pacific students value individuality. They like being treated as individuals, not numbers. They want their education to be exciting and challenging, to have a chance to contribute to the academic community, not just take from it. They want something that fits them.

Pacific students are interested in a strong liberal arts and science education with a professional focus. They want to be able to move successfully into graduate school or directly into a career.

Most of all, Pacific students want a quality learning experience. They want the kind of education only a small university that's big on personalized instruction can give.

Pacific University does not discriminate on the basis of sex, race, age, physical handicap, religion, national or ethnic origin in its educational programs or activities.

**PACIFIC UNIVERSITY**  
**APPLICATION FOR ADMISSION TO THE COLLEGE OF ARTS & SCIENCES**

Forest Grove, Oregon 97116-1797  
(503) 357-6151 / 1-800-635-0561

A \$25 application fee should accompany this form.

To be completed by the student.

**HOW TO APPLY:**

# PACIFIC UNIVERSITY

O R E G O N

# PACIFIC U

There's no easy way to put your finger on a diverse and dynamic university. Pacific's emphasis and focus is different for each student. First and foremost a caring and close-knit community, Pacific offers an atmosphere of academic challenge, opportunity and support.

Our undergraduate College of Arts and Sciences is committed to making sure that graduates are professionally prepared and provided with a realistic and optimistic career perspective. Critical thinking, decision-making and a love of learning are fostered, encouraged and appreciated at this independent liberal arts university.

## Academic challenge.

All Pacific undergraduates complete a core curriculum selected from the separate disciplines of the liberal arts. The core curriculum is designed to broaden each student's scope of experience and knowledge so that the student, in turn, can narrow the focus to a major area of concentration.

Within a student's major and beyond, Pacific has attempted to provide the stimulation and support that will push individuals to achieve their fullest. Independent study opportunities, honors programs, and an excellent advising system enable Pacific's curriculum to challenge every student.

## Opportunity.

Realizing that learning is experiencing, the University has designed courses and programs to provide students a chance to live, learn and work in new environments. Overseas exchanges, full-time work internships, cooperative degree programs with other universities, and innovative, non-traditional courses and concepts expand and enhance the opportunities available at Pacific.

### LOCATIONS OF CURRENT OVERSEAS PROGRAMS:

- London, England  
Central College
- Carmarthen, Wales  
Trinity College
- Paris, France  
The Sorbonne and Institut Catholique
- Nice, France  
University of Nice
- Prien, West Germany  
Goethe Institute

Bachelor of Science in Occupational Therapy with certifications. (Students may apply to the two-year professional program after a minimum of two years of prerequisite work.)

EDUCATION

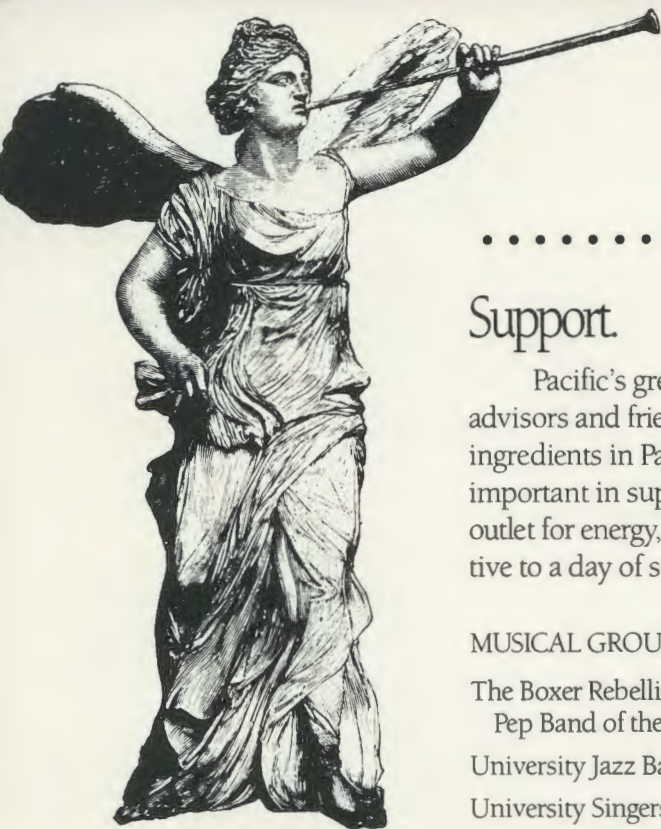

Master of Arts in Teaching  
Master of Science in Teaching

CLINICAL PSYCHOLOGY

Doctor of Psychology (Psy.D.)

## Support.

Pacific's greatest resource is its faculty. They function as teachers, advisors and friends, and their accessibility and excitement are the primary ingredients in Pacific's unique flavor. But there are other areas that are important in supporting student life. Extra-curricular activities provide an outlet for energy, a forum for student involvement and a wonderful alternative to a day of study.

### MUSICAL GROUPS:
