Re: Rajneeshpuram's cut-off from L.E.D.S. crime information network

Dear Governor Atiyeh

I am once again shocked and confused at the things that can happen in the U.S.A. —it makes me ashamed to be a citizen and ashamed of our "public servants." You are allowing us to be cut loose once again from our basic human rights — US citizens or not, without our computerized linkup with the FBI's crime information criminals will be able to visit here (again) and likely escape our detection. Are these friends of yours? We have a crime-free city and would like it to remain so.

Since there is no economic or political sanction here please use your position of public trust to the advantage of all who live here.

Sincerely,

Jeffrey A. Wade
