The Governor's Dinner was conceived in the 1950's honoring the late Governor Robert Holmes. Consolidated with the Chef of The Year award banquet in 1961, the affair has progressed through the administrations of Governors Mark Hatfield, Tom McCall, Bob Straub and now the honorable Victor Atiyeh. It has helped bring public attention to the skills and artistry of the culinary profession and has enhanced our industry.

The Chef of The Year award is bestowed by the chef's peers and colleagues honoring an individual for outstanding contributions in professionalism, advancement of the culinary arts and active participation in society events.

The Chefs de Cuisine Society of Oregon has been firmly dedicated to the principal of education within the industry and has carried forth this concept through its active apprenticeship program.

We are now in our twenty-fifth year of a tradition honoring Oregon's chief executive together with recognizing the most outstanding master in the culinary arts. A tradition our society holds dearly and will preserve for many years to come.
